\_\_\_\_\_

2. Which literature projects do you believe should be developed? We presently have these items on our "C" and "D" work lists:

- Living Clean*  
 *History of NA*  
 "NA Service"  
 "Practicing the Principles of Our Traditions"

What additional pieces do you think should be developed?

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

Rank these in importance (1 being the most important).

3. If your committee sees the need for a particular piece of literature, please consider drafting a proposal. This could be in the form of a concept, an outline, or a first draft. Although a couple of additional pieces of original material have been submitted this year, our files of source material, as you can see, are fairly limited. We see the generation of source material as important work for literature committees.
